Good to Know Info

As an outdoor education centre, the majority of our instructions and activities take place outdoors. Predicted or existing weather conditions may compromise our ability to safely offer the full outdoor component of your planned program. Please be advised that the centre's staff may reschedule a visit, or limit outdoor activity at their discretion, due to extreme weather conditions. If Centre staff determines that the behaviour of the group is such that safety is a concern, the program will be discontinued without refund.
